CIRCULATING THROUGHOUT THE VAST AGRICULTURAL AREA OF PALM BEACH COUNTY

Large Acreage Is Purchased To Be Widely Developed

New York, May 23—Webb & Knapp, Inc., New York real estate company, said today it has acquired control of 62,000 acres of sand and muck lands on the eastern edge of the Everglades in South Florida.

Webb & Knapp acquired the property by its purchase of majority control of Indian Trail Ranch, Inc., owner of the acreage which is in Palm Beach County. Henry L. Cohn Sr., of Palm Beach, a major stockholder in Indian Trail Ranch, will be general manager for the development.

The announcement said the area involved is divided into 20,000 acres of glade lands, to be intensively developed, and 42,000 acres of sand soil to be reclaimed over the years as irrigation goes forward. This latter is a game preserve now under lease to the Florida Fresh Water Fish and Game Commission.

The property now contains a 100-foot wide state-owned canal running from Lake Okechobee southeasterly across the property for 14 miles. It serves the dual purpose of irrigation and drainage.

A five-fold program of feed cultivation, cattle raising and breeding, diversified truck farming, production of dehydrated feeds and pulp wood is now in effect, the company said. The ranch also operates a laboratory for testing soil and grass samples, an experimental feeding station and conducts research into chlorophyll production.

LEGISLATIVE HAPPENINGS

— Session Of 1953 —

TALLAHASSEE — The house and senate this week prepared to move into high gear during the remaining two weeks of the 1953 session. First Saturday meeting of the session held senators in town for their first weekend mainly to participate in debate on a measure by Senator President Charley E. Johns to set up a legislative investigating body with subpoena powers to operate during the next two years.

John's bill was attached by Senator Leroy Collins of Leon County, and Senator James A. Franklin of Lee. Senator Franklin called the bill unconstitutional as an invasion of the judicial process.

Defenders of the proposal were Senator Russell Morrow of Palm Beach and Senator C. H. Bourke of Apalachicola.

A measure sponsored by the Florida Education Association for liberalized teacher retirement participation neared final legislative action. Also, in the field of education, the senate finally killed a measure by Senator Harry King to provide for a system of multiple textbook adoption, instead of the present single adoption system which has permissive multiple adoption feature. Senators Woodrow Melvin Franklin and Wayne Ripley led the fight against the bill.

The legislature adopted a measure, which was later approved by the governor, to revise the formula

for determining a county's participation in state funds for schools. Also favored by the senate was a bill by Senator Morrow reducing the school term for teachers from 10 months to nine and a half months. Senator Morrow's bill, opposed by teacher organizations, appeared slated for rough treatment in the house.

During the week, the senate approved toll turnpike proposal moved a step nearer final adoption when a house committee reported the measure favorably, recommending passage. Senator R. B. Cautier, Jr., Rep. Dante Fascell and other Dade legislators are the chief sponsors of the bill, which was opposed in the committee by House Speaker C. Farris Bryant, Rep. Tom Cobb of Volusia County, Rep. Sherman W. Smith of Indian River, and others. Cobb, chairman of the powerful house rules committee which determines measures to be considered each day by the house, indicated he will have the measure up for debate in the house by middle of next week.

Governor McCarty's vetoes of two local bills have been overridden by the legislature which has a tradition of upholding members who seek to legislate for their individual districts. The first veto to be overridden was on a bill by Rep. Bernie Papy of Monroe County. The second was by Rep. Gleaton of Citrus. The senate acted on the Citrus county measure on motion of Senator Jas. E. Conner of Inverness.

The great game of politics has placed the names of several prominent Floridians in the field for governor in 1956, three and a half years in the future. Considered likely starters are former Senator Henry S. Baynard of St. Petersburg, Senate President Johns, Comptroller Clarence Gay, Rep.

Robert Floyd of Miami, Speaker C. Farris Bryant of Ocala, Senator Wallace E. Sturgis of Ocala, Rep. B. Elliott, former house speaker from Palm Beach, Cecil Webb of Tampa and Bralley Odham of Sanford.

Pahokee News Has Open House

Several hundred guests attended the open house marking the official opening of the new Pahokee News building on Annona Ave. from 4:30 to 7:30 p. m. Friday.

As the guests arrived they registered in the guest book in the reception room where they were welcomed by Mrs. Alys Okie, the Pahokee News publisher, and Mrs. Jane Rieker, editor, hostesses.

At 6 p. m. there was a brief ceremony during which Ralph O. Johnson, president of the Pahokee Chamber of Commerce, officially opened the 30 by 80-foot two-story fireproof structure of modern concrete block and steel construction. Words of prayer were spoken by the Rev. W. Hal Hunter, pastor of the Pahokee First Baptist Church.

The guests were conducted on a tour of inspection during which they saw the operation of type-setting machines, automatic printing presses and the large press on which the newspaper is printed in the modern print shop on the ground floor. They were also shown through the modern apartment and roof-garden patio on the top floor.

Assisting the hostesses with the entertaining on the ground floor were members of the newspaper staff: Mrs. Miriam Dulany, who presided at the punch bowl; Bob McQueen and Harold Stewart, who explained the operation of the presses; Alden Chase and Pat Elliott. Assisting on the second floor were Mrs. W. A. Cross; also Mrs. Okie's mother, Mrs. Ralph Matheson of Hume, Va., and Mrs. Rieker's mother, Mrs. J. B. Rieker of Akron, Ohio.

Seminole Indian To Be Pictured

LAKE WALES—A thrilling historical drama, based on the history of the Seminole Indian, will be featured as an outstanding summer attraction at the Lake Wales Amphitheatre.

Title of the dramatic spectacle is "Florida Aflame." Opening June 27, it will run nightly, except Mondays, through Sept. 7.

In the story, the struggle of the Indians to retain their native land is vividly portrayed. Hero of the drama, of course, is Chief Osceola.

Author and executive producer John W. Caldwell has scored Ed Loessin as director. For the past three seasons, Loessin has been assistant director of the famed Cherokee Indian drama, "Under These Hills."

Popular prices will prevail and it is expected that the drama will prove a worthwhile summer attraction for Florida drawing attendance from both summer visitors and local residents.

A master Florida celery cooperative is being formed along the lines of Florida Citrus Mutual. Celery growers controlling about 85 per cent of the state's production have authorized a beginning of the project.

Ceremony Marks Sugar Season Close

CLEWISTON — In a brilliant ceremony in which the King and Queen of Sugar were crowned, Clewiston and the Lake area celebrated the close of the most successful sugar cane harvest ever recorded.

Several thousand employees of the United States Sugar Corporation together with their families enjoyed a barbecue and all day festa, Saturday May 23. During the Sugar Festival ceremonies employees with 15, 20 and 25 years of service to their credit received gold and jeweled service pins from General Manager H. T. Vaughn.

Pointing out that this was a record-breaking season Vaughn said that the Sugar House ground more cane during the season's operation than had ever been ground by any other sugar house in the world in the same period. He praised workers for their effort and loyalty and stated that it could not have been accomplished had it not been for the splendid teamwork of the entire organization. He complimented the workers on their achievement and termed it an event that more than justified such a celebration.

HAPPENINGS IN THE LAKE OKEECHOBEE REGION

25 YEARS AGO

The last of the rock for the lake front road at Canal Point was hauled yesterday and Contractor McVey Lindsay is moving his equipment out. The priming coat of oil will be applied the first of the week unless weather conditions prevent. The steam shovel moved this week from the county shop to the west bank of Hillsboro canal, where a road is being made from six-mile bridge to the Brown Company's peanut plantation.

A switch engine has been assigned to this territory for the past ten days, to shift cars at packing houses. This service compensates for the inadequacy of space on the sidetracks.

The Canal Point mill of the Southern Sugar Company will be operated in the coming season by the Savannah Sugar Refinery of Savannah, Ga., and workmen from Savannah will arrive in Canal Point next week to put the mill in condition. Capacity of the mill is to be made 600 tons of cane a day by the installation of a new set of rolls, an extra boiler and another set of pans. Starting in November, the Canal Point mill will be in operation for at least three months.

The East Beach team had not made a run up to the eighth inning when it played Sunday at Sherman against a team from that place and Okeechobee, and the opponents had three runs. But in the eighth inning East Beach got three runs, tying the score, and four runs in the ninth inning, winning by a score of 7 to 3. One thousand and seventy-two cars of tomatoes, beans and other agricultural products have been

shipped from stations of the Florida East Coast railroad in the upper Everglades in the past five weeks, an average of 214 cars a week.

County road funds that ought to be used to build more roads out to the tomato fields have to be used to fight fires along the roadsides, to protect the existing roads. The fires were set by human beings not by supernatural agency. Four county crews were engaged at four separate points this week fighting fires.

Roads built on the muck will not stand up. An eminent civil engineer says the only final solution is to dig out the muck down to the rock and fill in with sand and rock. Tax-payers can't stand that cost. We need more of that federal money for Palm Beach county roads.

Women are the real home-builders. Bachelors and widowers may be good fellows but they rarely set out flowers around their shacks—any more than they wash the dishes promptly after a meal. There are several new homes between Belle Glade and Pahokee—the humble homes of settlers just getting started but the women folks have done something in each case to make the appearance better.

"Pahokee is beginning to look like Grand View Heights," a visitor from West Palm Beach remarked as he looked at the new stuccoed buildings in Pahokee. Grand View Heights is a subdivision in West Palm Beach where some of the first stuccoed houses were built. Yes, and pretty soon Pahokee will be looking like Palm Beach.

The closing exercises of the Canal Point High School will begin Sunday, May 27th at 11 o'clock when Dr. J. F. Casson, of Delray Beach, members of the school board, will deliver the baccalaureate address at the Methodist church in Pahokee. The invocation will be given by Rev. F. E. Tiffin and some special music provided by the choir. On Wednesday, May 30th, at 8 p. m. the graduates will be given their diplomas at the Pahokee theatre.

The Woman's Club of Pahokee met in their regular social session Monday at 3:30 p. m. It was the turn of the humane committee chairman, Mrs. Cochran, to entertain, but as she was not well Mrs. Charley Moran had charge. Mrs. Campbell and Mrs. Duncan played a violin and piano duet. Mrs. Moran then gave a reading telling of the start of the Humane Society.

John T. Pickett, who announced a few months ago as a candidate for county commissioner from the fifth district, did not qualify and his name will not be on the ticket. He was on a construction job at Jacksonville and was detained there so long that it interfered with him prosecuting his candidacy. The candidates for county commissioner from the Everglades district who qualified, as candidates are E. T. King of Torry Island and Willard Smith of Pahokee.

Business is so heavy at the bank that patrons have to stand in line for their turn to make deposits.

The League of Women Voters met last Thursday in the theatre. They decided not to meet for two weeks, when they will have a social meeting with the president, Mrs. J. R. Poland. The ladies of Belle Glade and Canal Point are cordially invited to this meeting.

A Kaltenbruner and Jim Segler are the possessors of fine new automobiles, Reos. Mr. Kaltenbruner is prepared to start in July on his annual vacation, which will be spent at his place in North Carolina and he says he will show the car as an Everglades product—the product of Everglades produce.

Because the rains have held off the quality of the tomatoes is the best in 8 years.

Cards from Mr. and Mrs. Jos. Friedheim, who have gone to Texas on their honeymoon, state that they are enjoying a pleasant trip.

Miss Tommie Gray of Pahokee and Charles Carroll, farmer and contractor of Delray Beach, were married Saturday, May 19, at 5 p. m. in the Methodist church by the pastor, Rev. F. E. Tiffin. Named on committees to work jointly with Hibiscus Garden Circle groups in making arrangements for the luncheon were Mrs. J. S. Chastain, Mrs. Oscar Chastain, Mrs. Pope and Mrs. Bordeaux, flower arrangements; and Mrs. W. E. Brandes, food.

The beauty of Florida's Cypress Gardens received new praise recently when La Cote Libre, a Balian newspaper carried a lengthy story on the attraction.

Christian Science Group Of Canal Point

Mental and spiritual defense against all tyranny is the theme of services in all Christian Science churches next Sunday. Subject of the Lesson-Sermon is "ANCIENT AND MODERN NECROMANCY, ALIAS MESMERISM AND HYPNOTISM, DENOUNCED."

Verses from Jonah (2:8,9) provide the Golden Text: "They that observe lying vanities forsake their own mercy... Salvation is of the Lord."

Passages from the King James Version of the Bible amplifying the subject include these from Proverbs (22:17,29): "Bow down thine ear, and hear the words of the wise, and apply thine heart unto thy knowledge... Seest thou a man diligent in his business? he shall stand before kings."

Correlative citations from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy provide: "If mortals would keep proper ward over mortal mind, the brood of evils which infest it would be cleared out" (p. 234).

Episcopal Church Makes Changes

As of July 1 the Episcopal Church of the Holy Nativity, Pahokee, will be linked with the Church of Our Saviour, Okeechobee. A deacon who has just graduated from the seminary will be placed in charge at Okeechobee and will hold services in both cities. On one Sunday of each month, however, until the deacon is ordained to the priesthood, Father John Clarence Petrie of Clewiston and Belle Glade, will say Mass in Pahokee and administer the Holy Communion.

This change was necessitated by the rapid growth this winter of the group of Episcopalians who have been meeting Sunday nights in homes in Belle Glade. The movement reached such proportions that twenty families signed a petition to the bishop of the diocese for the establishment of a church. The petition was granted last week and on Sunday night the new mission held its first business session at the home of E. M. Lively in Belle Glade and elected a vestry.

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

The Palm Beach County Commission at its meeting June 8, will consider land sites for location of a suburban headquarters for the county Agricultural Department.

The board this week reviewed plans for moving the office of County Agent M. U. Mounts out of the court house and into a spot where this agency would be more accessible to the people it serves.

Submitted this week, was a proposed location—a 10 acre tract one half mile north of Four Points on Military Trail which Mounts said would be satisfactory. The county agent said he had discussed moving the headquarters with farmers in the county and that none of

them objected to the Military Trail location.

However, the commission voted to wait two weeks before taking any final action and in the meantime the board asked that anyone with property for sale along Military Trail or State Road 80 that would be suitable for headquarters site, to submit their proposals as soon as possible. The board also voted to have the north Military Trail property appraised.

In other actions the board: Transferred the printing of the county's delinquent tax list from the Delray Beach News to the Delray Beach Journal after the News asked to be relieved of the assignment.

Voted to purchase a station wagon for use at the county airport terminal, and for county voting machine administration.

Approved some ocean front maintenance work done by the town of Gulfstream with a stipulation that present abutments which extend 15 feet into the ocean, not be lengthened further.

Approved plans for repaving Lantana West Road between US 1 past the Lantana TB Hospital, giving the road a 24 foot top. County Engineer Boyd said the work was included in the present State Road Department budget.

Adopted as part of the county's requirements for sub-division approval, a new law which requires the county to set minimum standards for construction of sub-division approval, a new state law which requires the county to set minimum standards for construction of sub division roads. The board set requirements at 18 foot-paved roads.

The Palm Beach County Com-

mission this week into court to determine if Martin County was collecting taxes on property located south of the North Palm Beach County boundaryline.

Possibility of confusion over the correct boundary line affecting some 1300 feet of ocean front property on the borders of the two counties, was raised by Francis Love, Lake Worth attorney who has entered suit for a declaratory decree to establish the correct boundary between the two counties. Love is acting as attorney for one of the property owners along the disputed beach front.

Love asked that the county intervene in the suit in which Martin County has been named defendant. County Engineer J. M. Boyd said that all county line markers had been set on a line established by survey and that if there was an error in the boundary, it could be established by rechecking the survey figures.

County Commissioner Kenneth Foster asked that the board enter

the suit, a move which the commission approved. Love said costs of the litigation would not be assessed against the county.

Cinematic Chatter

By Malcolm Millar

Hello everybody! Judging from her screen roles it's not surprising that Hollywood gag writers frequently use the expressions "dumb like Marie Wilson" . . . but members of the Hollywood film colony who know her well say it would be more appropriate to refer to her as "smarter than a whip." Marie has parlayed a pair of amazing wide blue eyes, a bewildered expression and, it must be admitted, other visible assets, into fame and fortune in movies, television, radio and on the stage. People all over the world continue to wonder whether this bouncy blonde with the fullsome figure can possibly be as dumb as she seems. And that's a real tribute to Marie's talent. One of the most popular personalities in Hollywood with her easy-going, happy disposition. She refuses to worry and is never subject to moods or depressions. When she opens wide those big blue eyes, calls you "honey" and asks a favor, there is just no refusing her, especially since she grants plenty of favors herself. She doesn't smoke or drink, always has her hair done before arriving at the studio and applies her own make-up. She has no pet hates or aversions. Surprising enough she plays a very fast game of tennis. She has a pet Yorkshire terrier named Hobbs, which she describes as the most human dog in the world . . . See you at the movies—Mal.

Pahokee Lions To Hold Ladies Night

President Curtis Chase called upon chairman of standing committees for reports of club activities and achievement during the past month.

Ace Theatre Fire Does Much Damage

The Ace Theatre in the Negro section of Belle Glade was partially destroyed by fire Tuesday, according to Fire Chief Lawrence E. Will.

The building was owned by the Gold-Dobrow Theatres.

The fire was discovered by the janitor when he opened the doors at 10:37 a. m. He immediately turned in the alarm, but when fire trucks reached the scene, flames were bursting from the roof.

According to Fire Chief Will, the fire seemed to have started near the outside wall of the projection room close to the ceiling. Cause of the fire was not determined. Damage was only partially covered by insurance.

Dear Friends and Neighbors:

We of the Sunshine Service Family are sincerely appreciative of the many votes of confidence we received from the citizens of Pahokee in the franchise election.

We will work harder than ever to please you—and we're going to make every effort to help Pahokee and Palm Beach County grow and prosper.

Your expressions of confidence are an inspiration to us.
